

Demonstration of Proposed Features

Date	28 September 2026
Team ID	6ab221341
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures the proposed features for the ServiceNow Incident project, "Implement Client Script & UI Policy (Incident)," and tracks whether each feature has been implemented and demonstrated. It records the planned form behavior, validation, and field controls for the Incident form.

S. No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Client Script – onLoad	Run client-side logic when the Incident form loads, where required.	Pending	No	Update based on actual demo.
2	Client Script – onChange	Respond to changes in selected Incident fields.	Pending	No	Update based on actual demo.
3	Client Script – onSubmit	Validate required or appropriate values before form submission.	Pending	No	Update based on actual demo.
4	UI Policy – Mandatory Fields	Make selected Incident fields mandatory when conditions are met.	Pending	No	Update based on actual demo.
5	UI Policy – Visible / Hidden Fields	Show or hide relevant fields based on Incident conditions.	Pending	No	Update based on actual demo.
6	UI Policy – Read-only Fields	Set selected fields to read-only when conditions are met.	Pending	No	Update based on actual demo.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	To be updated after implementation
Total Features Demonstrated	To be updated after demonstration
Overall Implementation Rate (%)	To be calculated after implementation

Note: Feature statuses and demonstration results are marked as pending/not demonstrated as a template. Update them to match the actual work completed in your ServiceNow instance.
