

# Team Involvement in Demonstration

|               |                                                |                |           |
|---------------|------------------------------------------------|----------------|-----------|
| Date:         | 28.09.2026                                     | Team ID:       | 6ab221341 |
| Project Name: | Implement Client Script & UI Policy (Incident) | Maximum Marks: | 1 Mark    |

## Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

| S.No | Team Member Name  | Role in Demo           | Section Presented                              | Contribution Summary                                                            | Participation (Active / Passive) |
|------|-------------------|------------------------|------------------------------------------------|---------------------------------------------------------------------------------|----------------------------------|
| 1    | Member 1 (Leader) | Presenter & Flow Lead  | Client Script Overview & OnLoad Implementation | Demonstrated OnLoad / OnChange Client Scripts execution in Incident Form.       | Active                           |
| 2    | Member 2          | Technical Demonstrator | UI Policy & Field Conditions                   | Showcased mandatory & read-only field dynamics using UI Policies.               | Active                           |
| 3    | Member 3          | System Tester          | Validation & Scenario Testing                  | Executed test cases verifying Client Script script logic vs UI Policy priority. | Active                           |
| 4    | Member 4          | Documentation & QA     | Code Review & Exception Handling               | Explained script syntax, error logging, and browser console debugging.          | Active                           |
| 5    | Member 5          | Q&A; Coordinator       | Q&A; & ServiceNow Best Practices               | Handled evaluator questions regarding Client Script vs UI Policy use cases.     | Active                           |
| 6    | Member 6          | Support Lead           | Instance Setup & Data Preparation              | Managed ServiceNow instance configuration and sample incident records.          | Active                           |

## Team Coordination Notes:

| Aspect                                 | Details                                                                      |
|----------------------------------------|------------------------------------------------------------------------------|
| Team Leader / Coordinator              | Member 1                                                                     |
| Overall Team Coordination Rating (1-5) | 5 / 5                                                                        |
| Any issues during demo                 | Minor browser delay while executing client-side script verification.         |
| How issues were resolved               | Refreshed the ServiceNow form view and verified UI Policy actions instantly. |
